<b>BIM-connect (Revit add-in)</b>	<b>Room-level export</b>								
Description: program to create links within Revit between objects from Briefbuilder and 3D models, incl. Data export.									
<b>Module Verification Briefbuilder design brief*</b>	<b>Including Spaces</b>	per m1 per project size***	€ 0,157500 € 157,50	€ 0,047250 € 236,25	€ 0,029925 € 299,25	€ 0,018900 € 378,00	€ 0,011550 € 577,50	€ 0,007875 € 787,50	€ 0,006300 € 945,00
Description: program to create a link within Revit between objects from Briefbuilder and 3D models, incl. Data export. Including: BIM-connect Brief; Verifying surface and numbers of rooms; 5 user parameters at room level.									
<b>Including inventory and equipment</b>									
Including: 2 user parameters at object level.									
<b>Including Installations (MEP objects)</b>									
Including: 2 user parameters at object level.									
<b>Installation / implementation / instruction costs **</b>	<b>per hour</b>		€ 125,00	€ 125,00	€ 125,00	€ 125,00	€ 125,00	€ 125,00	€ 125,00

\* includes : Providing updates (for latest versions of Revit, max. 1x per year) and solving errors in software. The updates include developments and additions to the respective software module.

The developments within BIM-connect will only take place in the current version of Revit. BIM connect development for older versions of Revit is frozen

\*\* includes : Providing support during the use of the BIM-connect software. Advisering bij implementatie van BIM-connect in projectstructuren and the possible work processes / methodologies. Installation costs on location or remotely, and / or support in this. Mileage will be declared on the basis of € 0.35 / km.

\*\*\* includes : Total prices are converted to the actual size of the project. Purchase period of at least 6 months, minimum purchase based on 1000m2. Delivery for use within one project.
